

WHAT IS CLAIMED IS:

1. A cigarette filter comprising a micro-porous fiber with semi-open cavities which are loaded with a flavorant delivering material in solid or liquid forms.

2. A cigarette filter as in claims 1 wherein the fiber is a trilobal fiber with continuous semi-open cavities.

3. Cigarette filters as in claim 1 wherein the fiber is a quadrilobal fiber with continuous semi-open cavities.

4. Cigarette filters as in claim 2 wherein the fiber is loaded with pure methanol flavorant delivering material in solid powder form or in dissolved or melt liquid forms .

5. Cigarette filters as in claim 2 wherein the fiber is loaded with methanol flavorant delivering material supported on an adsorption/absorption particle.

6. A cigarette filter as in claim 1 wherein the flavorant delivering material is in a ratio to the fiber in an amount from about 1 to about 90%, by weight.
